engineering enterprise

Bandung, May 22, 2018

Dear Mr. Natthapong Jungteerapanich
Dean Of Software Engineering Program
King Mongkut's Institute of Technology

I am glad and exciting about this summer internship program, and here by confirm that Mr. Damian Satya will be joined into one of PT.TBN's development team during the proposed periode.

Currently our company already have several cooperation with universities in Indonesia on similar program. In fact, on the same periode Mr. Damian Satya will be accompanied by four other participant from other 3 universities.

PT. Tigaresi Bangun Nusaperdana is an Engineering Enterprise company which develops various industrial products from time to time. Our customer ranges from Oil & Gas Sector, Financial Sector, Telco Sector, and Toll Road Industry. Currently our major products are Toll Road Collecting System and Automation System For Oil Distribution Depot. The second one has very interesting various development activities because we pursue the world class depot operational status. Thank God one of depot that we work on is a runner up in the Most Efficiency Tank award (Global Tank Storage Award 2018 Rotterdam) among other depots worldwide.

Mr. Satya will be join our development team activities during June-July and be supervised by Mr. Victor P Limbong as the manager of Depot Automation product. Detailed info of this activity is attached in this email in your Internship Acceptance Form format.

Thank you for the trust for us to participate in the program and we pray the best progress for both of our institution.

Best Regards,
Raymon Mudrig
Director
PT. Tigaresi Bangun Nusaperdana
Jl. Sidomukti No 56
Bandung
